PROFESSIONAL SUMMARY

Junior Django Developer with hands-on experience building job portals, e-commerce platforms, and portfolio websites using Django through academic and personal projects. Skilled in REST APIs, authentication, role-based access control, and database management using PostgreSQL and SQLite. Strong foundation in Python, backend logic, and responsive web development.

TECHNICAL SKILLS

Backend Development: Python, Django, Django REST Framework, Authentication & Authorization, REST APIs

Frontend Development: HTML5, CSS3, Bootstrap, JavaScript

Database: PostgreSQL, SQLite

Version Control & Tools: Git, GitHub

PROJECTS

Job Portal Website

- Built a full-featured job portal using Django, Python, HTML, CSS, Bootstrap, and PostgreSQL
- Implemented user authentication, role-based access control, and admin panel using Django's built-in auth system
- Developed job posting, application management, and employer-candidate interaction features with Django ORM

E-commerce Website

- Developed a responsive e-commerce platform using Django, Python, HTML, CSS, Bootstrap, and JavaScript
- Implemented product listing, cart system, order placement, and database integration using SQLite/PostgreSQL
- Focused on clean UI, smooth user experience, and backend order management logic

Personal Portfolio Website

- Designed and developed a dynamic portfolio website using Django, Python, HTML, CSS, and JavaScript
- Implemented template inheritance, dynamic content rendering, and responsive design
- Optimized performance and structure using Django template engine and backend logic

EDUCATION

Diploma in Computer Science

Daffodil Technical Institute | January 2022 - January 2026

CERTIFICATIONS & TRAINING

1 . Web Application Development using Python

Daffodil International Professional Training Institute (DIPTI)

3 months duration | Certified by NSDA (National Skills Development Authority)

2 . Responsive Web Design - Internship

Daffodil International Professional Training Institute (DIPTI)

3 months internship program

WORK EXPERIENCE

Web Developer | Bavaria Garments Exporter LTD

February 2026 - July 2026

- Developed and maintained company websites and internal web applications using Django and Python
- Collaborated with cross-functional teams to implement responsive frontend designs using HTML, CSS, Bootstrap, and JavaScript
- Managed database operations using PostgreSQL and optimized queries for better performance
- Implemented authentication and role-based access control for internal management systems
- Provided technical support and troubleshooting for existing web applications
